

Symbol	Meaning
	<p>Agencies that have a particularly strong commitment to <i>interdisciplinary</i> care for Parkinson's with teams consisting of at least Physical, Occupational <i>and</i> Speech Therapists.</p>
	<p>Agencies with clinicians who are quite Parkinson's specialized and have been identified to us as seeing <i>many</i> Parkinson's patients.</p>
<p>No symbol</p>	<p>Other agencies with clinicians who have received/undergone specific Parkinson's trainings or certifications.</p>

Please Note:

- UNC Movement Disorders Center is not endorsing any of the agencies included on this list, nor the clinicians at the agencies, and cannot be held responsible for the care or services offered by them.
- This list is updated on a yearly basis. Therefore, agencies listed below and their clinicians are subject to change without our knowledge. It is also possible that clinicians in your area have been trained without being on this list.
- If there are no specific clinician names listed, it may be because there are *many* PD-trained clinicians there and/or they have an organized system of knowing to which clinician Parkinson's referrals should go.
- The agencies below may or may not have clinicians certified in LSVT or PWR – they may have received other trainings, such as attending the Parkinson's Foundation's Allied Team Training or the UNC Colloquium on Interdisciplinary Care for Parkinson's. If you are searching for a specific program, you will need to ask.
- If there are no agencies listed in your city or county, don't forget to look at nearby counties. If there are none there, we recommend searching for rehabilitation therapists near you who are specialized in "neurological" conditions, "geriatrics," and/or, for Physical Therapists, "balance & gait."

Listed by NC county (alphabetically)

BEAUFORT COUNTY

Occupational Therapy Plus, Inc.
